# KAREN LOBIN **PERKINS** FULL STACK WEB DEVELOPER

✉ karenlobinperkins@gmail.com  🌐 http://karenlobinperkins.com/  📞 4043080092  📍 Atlanta, GA  🔗 23carnies

## SUMMARY ▸

A design focused full stack developer, I bring energy and determination to everything I do. I am a goal-driven self-starter, thriving in fast-paced, team environments and confident working with teams remotely in multiple time zones.

## TECHNICAL SKILLS ▸

**FRONT END:** ReactJS, CSS, JavaScript, WAI-ARIA, A11Y, Sass/SCSS, React Spring, Styled Components, React Three Fiber, Bootstrap, EJS Templating, Gatsby, Materialize, Semanitc UI
**BACK END:** OAuth, Node.js, ERD/Database Design, Django, Python, ExpressJS, MongoDB, MongooseJS, PostgreSQL, Heroku, Postman
**OTHER:** Remote Teams, Git, Adobe Photoshop, Markdown, MS Office with Access, Google Suite, Spanish Speaker, Conflict Resolution

## PROJECTS ▸

### Despejado | Clear
A single-page, bilingual, weather app built in ReactJS and styled using SCSS preprocessor. Using ReactJS to conditionally render the target language, this app utilizes the OpenWeatherMapAPI and the Sunrise-SunsetAPI.

### bilingüe
A full CRUD Django/Python app for Spanish language skills, designed with pure CSS. PostgreSQL is the backend database.

### Meet Your Maker
A full CRUD MERN app for local sale of goods. This team project employs AWS-SDK and Semantic UI. Each component is conditionally rendered to show the correct component display based on user's status as buyer, seller, or not logged in.

## EXPERIENCE ▸

**The Coop** · • *Front End Engineer*                                                           Dec. 2020 to Current
An early stage start up helping career changers accelerate their transition into Engineering and Design fields by providing them real world experience and mentorship, building projects and working in Agile teams.
• Work with UX/UI designers closely to build pixel-perfect, open source apps in ReactJS
